CAREER OBJECTIVE

Dynamic and fresh-minded Full Stack Software Developer seeking an opportunity to contribute to a challenging team. I am eager to contribute to immediate organizational goals, adapt to dynamic industry technologies, and grow alongside the organization..

ACADEMIC PERFORMANCE

ANNAMALAI UNIVERSITY — MBA- HUMAN RESOURCE MANAGEMENT

2020 - 2022, NAGERCOIL

S.T.HINDU-COLLEGE, MS UNIVERSITY — BSC- COMPUTER SCIENCE

2016 - 2019, NAGERCOIL

TECHNICAL SKILLS:

- Software Requirements Analysis and Research

- Microservices and monolithic

- RestAPI Development & Integration

- Software Architecture & Design

- Database Architecture

- Software Development

- Software Documentation

- Software Testing & Release

Programming Languages:

- PHP

- JAVA

- PYTHON

- JAVASCRIPT

- SQL

Web Front-end Technologies:

- HTML5, CSS3, JavaScript (ES6+)

- Bootstrap 5.3

- React.js

Back-end Technologies:

- Php(Laravel,Codeigniter)

- Java (Spring Boot)

- Python(Django)

- Node.js, Express.js

Database Management:

- MySQL, PostgreSQL, MongoDB

- Redis, Firebase

Amazon Web Services:

- IAM, S3, BILLING , MONITORING

- EC2, RDS , UBUNTU, ELASTIC BEANSTALK , SECURITY GROUPS

- CLOUDFRONT, ROUTE 53, CERTIFICATE MANAGER , LOAD BALANCER(ALB,NLB)

- CODE PIPELINE, CODE COMMIT

Server Management:

- AWS , CPANEL HOSTING

- FORGE HOSTING (php - laravel)

- Apache2 , Nginx

- Docker,

- Domain Management

- Kubernetes - Basics

Version Control:

- Git, GitHub, GitLab

Testing and Deployment:

- Continuous Integration/Continuous Deployment (CI/CD)-(AWS)

Mobile Application Development:

- Android (java)

- Flutter(Dart)

- Swift (Ios Native)- Basic

- Kotlin - Basic

Mobile Application Release:

-Playstore, App Store release

Other Tools:

- ChatGPT, Bard , Bing

 -Anaconda (Python environment)

- MySQL Workbench, Phpmyadmin(mariadb), Postgresql,TablePlus

 -Filezilla

 - Jira

SOFT SKILLS:

- Multitasking

- Communication Skills

- Results Oriented

- Self-Motivated

- Experience Working in an Agile Environment

PROFESSIONAL EXPERIENCE:

SUZHIYAM, NAGERCOIL, KANYAKUMARI, TN — FULL STACK SOFTWARE DEVELOPER
29/05/2022 - PRESENT | www.suzhiyam.net

Full Stack Development:

- Developed and maintained robust applications, ensuring optimal functionality and user experience.
- Implemented design patterns, emphasizing adherence to best practices in code development.
- Conducted comprehensive code reviews, identified areas for improvement, and provided constructive feedback to enhance code quality.

Technology Proficiency:

- Demonstrated proficiency in Web and Mobile Applications, contributing significantly to the success of various projects.
- Utilized frameworks to enhance application functionality.

Technical Development:

- Applied strong technical development skills to ensure the creation of efficient and reliable code.
- Emphasized configuration management and code refactoring to maintain codebase integrity.

Team Collaboration:

- Worked collaboratively with team members, fostering a cooperative and productive work environment.
- Led a team of 3-4 developers, providing guidance, support, and leadership.

Project Management:

- Successfully managed daily status calls, addressing issues, providing solutions, and ensuring timely issue resolution.
- Collaborated closely with onsite Managers, reporting project status and ensuring alignment with organizational goals.

Client Relations:

- Established and maintained positive relationships with clients, ensuring clear communication and satisfaction with project deliverables.
- Training and Development: Conducted internal training sessions for developers within the team, enhancing skill sets and promoting continuous learning.
- Collaborated with developers to design algorithms and flowcharts, ensuring efficient and scalable solutions.

Quality Assurance:

- Produced clean, efficient code based on specifications, meeting project requirements and quality standards.

- Integrated software components and third-party programs, ensuring seamless operation of the overall system.

Troubleshooting and Upgrades:

- Troubleshooted, debugged, and upgraded existing software, ensuring ongoing system reliability and performance.
- Conflict Resolution:
- Effectively managed conflict within the team, promoting a positive and collaborative work culture.

Leadership and Ethics:

- Demonstrated good work ethics and a positive attitude towards work.
- Remained calm and effective in crisis situations, ensuring a focused and solution-oriented approach.

Professional Development:

- Stayed on the leading edge of development practices, staying updated with the latest technologies and open-source trends.

B2C TECHNOLOGIES,NAGERCOIL,KANYAKUMARI,TN — IT ENABLED SERVICES

26/02/2020 - 15/05/2021

- Work collaboratively with others to achieve target
- Salesforce work
- Process Associate

PROJECTS DEVELOPED & WORKED:

Biotech Products Management (Scratch to Hosting)

Project Overview: Medical products management and listing for placing orders from hospitals and doctors By representatives .Datas added and managed from Admin panel,Staff app (android) connected to backend with Rest API hosted in AWS.

Technologies Used: Laravel (PHP), Android(JAVA) , AWS , CPANEL

Challenges Faced: First application ever developed by me and hosted in aws server .

Social Media (Scratch to Handover)

Project Overview: customer app(flutter) with products listing and cart and wishlist ,Admin panel(flutter) for adding and manipulating orders and products.Rest api (laravel) connected with customer and admin app ,Backend hosted in AWS

Technologies Used: Laravel(php),MySQL

Achievements: Created project from scratch to handover in 2 days

Challenges Faced: Time Management

E-Commerce (Scratch to Hosting)

Project Overview: customer app(flutter) with products listing and cart and wishlist ,Admin panel(flutter) for adding and manipulating orders and products.Rest api (laravel) connected with customer and admin app ,Backend hosted in AWS

Technologies Used: Flutter ,Laravel ,Aws,MySQL

Achievements: Created project from scratch to hosting in 2 weeks

Challenges Faced: Compatibility issues in flutter front end when in web view same view for both android ,ios,web.

Event Management (Scratch to Handover)

Project Overview: Custom registration form using drag and drop form generator for Each Events by event admin and shared as link to users for registration then distribute I'd cards via email,event admins can be monitored and managed from Multiple role admin panel

Technologies Used: Laravel (PHP),MySQL

Travels Management(Update , Fix, Hosting, Play Store and AppStore Release)

Project Overview: Travels admins added by superadmin, then Vehicles, drivers ,locations and prices added by travels admin, Passenger app (flutter) - customers place trips with payment,Driver app(java-android native) pickup and drops passengers . mobile apps connected to backend with rest API's.Have payment gateways and sms integrations.

Technologies Used: Laravel (PHP), Flutter(DART), Android(JAVA), AWS,MySQL

Challenges Faced: MYSQL Database tables and columns missing, payment calculation issues.

Hotel Bookings Management (Update and Fix)

Project Overview: Hotel booking app with calendar for taking orders and managing those orders with the admin panel.

Technologies Used: Laravel (PHP ,Voyager),PostgreSQL

Challenges Faced: overriding views and controllers and customizations.

Human Resources Management Consultancy (Scratch to Hosting)

Project Overview: Website with job openings with mail integration ,Managed from Admin panel. Hosted in cpanel

Technologies Used: Laravel (PHP),MySQL

Manpower Agency (Scratch to Hosting)

Project Overview: Website with Application form and grievances for candidates with custom chat integrated .Managed by Manpower services Admin panels with Multiple User Authentication and Roles

Technologies Used: Laravel (PHP), Cpanel,MySQL

Records Management (Update and Fix)

Project Overview: Records management project with multiple database tables displayed and managed with the help of admin panel.

Technologies Used: Laravel (PHP ,Voyager),PostgreSQL

Trust Project (Scratch to Hosting)

Project Overview: Dynamic Website with Admin panel with Payment gateway integration hosted in AWS

Technologies Used: Laravel (PHP), AWS,MySQL

Matrimony Application (Update , Fix and Hosting)

Project Overview: Matrimony registration by users, and matches managed by multi role admin panel with docker containerization hosted in digital ocean droplet .

Technologies Used: Django(Python), Docker, DigitalOcean, PostgreSQL

Broadband service provider (Update , Fix , Hosting, Play Store and AppStore Release)

Project Overview: Android and ios applications with payment gateway integration and package switching option with changing plans with list plans with ads and admin panel authentication and security work for backend payment logs listing .

Technologies Used: Laravel(PHP), Android(JAVA), IOS(SWIFT),MySQL

Learning App (Update and Fix)

Project Overview: Courses listing and selling with multiple roles of users.

Technologies Used: Android(JAVA)

Stock Management Project (Update and Fix)

Project Overview: stock management and placing orders

Technologies Used: Android(JAVA),SQLITE

PERSONAL STRENGTHS:

- Excellent problem solving skills and self-Motivator.
- Takes initiative in a group activity and is adaptive to the team.

PERSONAL INFORMATION:

Name	:	BENO.D.R
Father's Name	:	DAVID.M
Date of Birth	:	27-01-1999
Nationality	:	INDIAN
Languages Known	:	English & Tamil
Marital Status	:	UnMarried
Address	:	26/4 MUTHAMIZH STREET,
		INDIA, TAMIL NADU, KANYAKUMARI,
		NAGERCOIL,629001.

DECLARATION:

- I declare that the information furnished above is true to the best of my knowledge & belief.
- I am also confident of my ability to perform in a team or independently.

YOURS SINCERELY,
     BENO.D.R
